

Dear _____,

I am an Updraft America voter. In the upcoming election, I will cast my vote *only* for candidates who will work with members of opposing parties to find common ground. Only by bridging the political divide can we create workable solutions to the problems we face as a nation.

Prove your willingness to end partisan gridlock. Demonstrate your commitment to seek compromise and to act with civility through your campaign advertising, interviews, and events. I will be judging your actions, along with those of other candidates. My vote will be cast for bipartisanship so we can move America forward.

It is time to change the political dynamic by putting country ahead of party. Every American has the power of his or her vote. Together, we will create change.

Your constituent,
