

Dear \_\_\_\_\_,

I am an Updraft America voter. In the upcoming election, I will cast my vote *only* for candidates who will work with members of the opposing party to find common ground. Only by bridging the political divide can we create workable solutions to the problems we face as a nation.

Prove your willingness to end partisan gridlock—and act with civility--through your campaign advertising, interviews, and events. I will judge your actions, and those of other candidates, looking for evidence of bipartisanship and compromise. My vote will be cast for moving America forward.

It is time to change the political dynamic. We have the power of our votes—they will create the change we need.

Your constituent,
